Program on hydroponic gardening

St. Patrick's Day theme at March XYZ

Traditional St. Patrick's day fare of corned beef and cabbage, as well and many other offerings, will be on the table for the noon potluck meal on Friday, March 20th at the Bentley Eagle Senior Center.

The XYZ luncheon will also feature a special program by Merlin Pore, of the Sedgwick County Extension Service, teaching us all about hydroponic gardening. Hydroponic gardening is growing plants without soil; nurturing them in a water solution meant to help them flourish. Come learn about this interesting and unique technique.

Bring your favorite covered dish to add to the St. Patrick's Day theme, bring a friend, and enjoy the get-together!
